## This-N-That

Good evening Jim,

This is a busy time of year for everyone in preparation for Christmas. Decorating the house, tree and home with all the trimmings. Trying to decide what's the perfect gift for each person in your family and friends.

Just as a reminder while out shopping, keep your wallets in an inside pocket, and be sure to close up your purse and hold it close to you, don't leave it in the shopping cart. It only takes seconds for that one horrible person to rip you off and we don't want anyone's Christmas to be ruined.

We've added only one piece of legislation to the **TAKE**

**ACTION** list, and I'm asking everyone to please take the 30 minutes or so and complete each letter.

There is also a new article under "Links to Other Stories" regarding CPAP's and claims, it's probably one of the best ones I've seen so far to date.

And I'm not getting much in the way of positive information on the recall Philips has done on their Dream Station CPAP machines. Some have received a new replacement within a few months, others are being told could take as long as two years, which to me is highly unacceptable.

Thankfully my personal doctor has ordered another sleep study which will qualify me for a brand-new machine and skip the wait.

I don't know how the VA is or will handle this, but it doesn't hurt to contact your doctor to see what he/she can do for you. For many of us who use a CPAP, it's not just a matter of being able to sleep and breath, but it's a matter of life and death for those with severe cases.

If you've not visited our website, [www.veterans-for-change.org](http://www.veterans-for-change.org) or not visited in a while, please be sure to check often for updates on documents, web links, etc., we are a bit slow, but are moving as fast as we can, yet not over-loading to put more work on our Webmaster when we get to the transition into the new look.

If you choose to create an account to access more information, please keep in mind not to use your E-Mail address as a user ID, and that the system is case sensitive. Neither the webmaster or myself have access to password information as

it's 132-bit DoD level security encoded. But, if need be, we can change it for you.

On behalf of our Volunteers nationwide and myself, we wish you and your family good health and a Very Merry Christmas!

Respectfully,

Jim Davis

## **Missing Man Table**

Each item on the Missing Man Table represents the emotions and feelings reserved for those who did not come home. The ceremony symbolizes that they are with us, here in spirit. All Americans should never forget the brave men and women who answered our nation's call to serve and fought for our freedom with honor.

The symbolism of the Missing Man Table: The table is round, to show our everlasting concern for our missing men.

The cloth is white, symbolizing the purity of their motives when answering the call to serve.

The single red rose; displayed in a vase, reminds us of the lives of these Americans and their loved ones and friends who keep the faith while seeking answers.

The red ribbon symbolizes our continued determination to account for our missing.

A slice of lemon reminds us of their bitter fate; captured and missing in a foreign land.

A pinch of salt symbolizes the tears of our missing and their families who long for answers after decades of uncertainty. The lighted candle reflects our hope for their return, alive or dead.

The Bible represents the strength gained through faith to sustain us and those lost from our country, founded as one nation under God.

The glass is inverted, symbolizing their inability to share a toast.

The chair is empty, the seat that remains unclaimed at the table.

**Your actions**  
**could save a life.**

Showing you care can make a big difference to someone in crisis.

## Defeating the Holiday Blues

For many veterans, the holiday season intensifies feelings of stress, depression, anxiety, and loneliness. Creating a community and building connections are ways to combat the holiday blues and provide a sense of purpose. For those unable to meet in person with family and friends, you can schedule video calls, online game nights, or virtual dinners, workouts, and watch parties. You can also volunteer with local VFW posts and veteran support organizations in your area.

## VFW Testifies Before House Subcommittee

The House Veterans' Affairs Subcommittee on Economic Opportunity held a hearing on removing barriers to homeownership for veterans. VFW National Legislative Associate Director Emily DeVito testified on the need for VA to combat misconceptions about VA-guaranteed home loans that make them less competitive with other loans. "For sellers, accepting an offer with a VA-guaranteed loan may be seen as burdensome as sellers fear not meeting VA appraisal standards or the hassle of an extended timeline," said DeVito. She also stressed the need to educate buyers on all the benefits VA-guaranteed loans offer, such as the opportunity to obtain an Energy Efficient Mortgage. ## NDAA Update

Earlier this year, the House passed its version of the FY2022 National Defense Authorization Act (NDAA-H.R.4350). The Senate has been unable to reach agreement to vote on the

NDAA. The House and Senate staff worked to create a new NDAA. The bipartisan leaders of the House and Senate Armed Services committees released a new NDAA (S.1605), following days of compromise negotiations that had resulted from the Senate's failure to pass its own version through the upper chamber. The new bill passed the House (363-70) and is pending in the Senate. The new FY2022 NDAA provides the following:

- No new TRICARE fee increases;
- Prohibits drastic cuts to Defense medical staff for one-year;
- Provides annual active duty pay increase (2.7 percent) that keeps pace with civilian pay;
- Eliminates provision in an earlier version to require women to register with Select Service System;
- Removes sexual assault investigations from the chain of command;
- Requires DFAS to provide 90-day notice of suspension of retirement and annuitant benefits with explanation for suspension;
- Requires DoD to test for per- and polyfluoroalkyl substances (PFAS) at U.S. bases that have had PFAS releases;
- Provides a new basic needs allowance to ensure service members do not suffer from food insecurity;
- Permits Defense and Veteran Affairs departments to share medical facilities; and
- Requires an independent review of the DoD suicide prevention program.

The bill is expected to pass the Senate no later than next week and be signed into law by President Biden. FRA is grateful for many of the above referenced provisions but is disappointed several critical issues such as concurrent receipt expansion, were not addressed in the final bill.

## **Agreement on Debt Ceiling**

Republicans and democrats have reportedly come to an agreement regarding the U.S. Government's debt ceiling (S.610), which also includes delaying a 10 percent Medicare reimbursement cut for doctors and hospitals until 2023, scheduled to take effect Jan. 1, 2022. Effective Aug. 1, 2021, the two-year suspension of the U.S. government debt limit ended. The Treasury Department was doing "extraordinary measures" to pay the government's expenses that would likely be exhausted by Dec. 15, while lawmakers worked to address the cap. The debt limit restricts how much the federal government can borrow to finance its existing obligations.

The USS Arizona Mall Memorial at the University of Arizona pays tribute to those who died on the USS Arizona during or as a result of, the attack. The ship is the final resting place for 1,102 of the ship's 1,177 crew who lost their lives in 1941 - nearly half of the 2,403 service members and civilians who were killed during the attack. In all, 19 Navy ships were damaged or sunk. Other FRA branches around the country also hosted and participated in events to honor the anniversary.
